DIRECTORS' REPORT

The directors of Rinker Group Limited ('Rinker') present their report on the consolidated entity consisting of Rinker Group Limited and the entities it controlled at the end of, or during, the half year ended 30 September 2006 (the 'Rinker group').

The directors believe that the best measure of performance for Rinker's US and Australian subsidiaries is in their respective local currencies inasmuch as they generate virtually all revenue and incur all costs in those local currencies. Rinker Materials Corporation US dollar denominated performance represents approximately 80% of the total Rinker group result. Consequently, the directors believe US dollar reporting represents the best measure of overall Rinker group performance.

For a reconciliation of non-GAAP financial measures included in the Directors' Report, please see pages 19 to 21. Unless otherwise shown, the amounts have been rounded to the nearest tenth of a million dollars and are shown by 'US\$ million'. Rinker is a company of the kind referred to in Australian Securities and Investments Commission Class Order 98/100 issued 10 July 1998.

REVIEW OF OPERATIONS AND THEIR RESULTS

Rinker half year EPS up 16%, like-for-like EPS up 22%.

Net profit after tax (PAT) for the half-year ended 30 September 2006 was US\$410 million, up 12% on the previous corresponding period.

Earnings per share (EPS) rose 16% to 45.3 US cents. Earnings per ADR were US\$2.26, also up 16%.

On a like-for-like basis, PAT rose 19% and EPS rose 22%. This result excludes the US\$20 million after tax gain in the previous corresponding half, from the sale of a Las Vegas quarry.

Trading revenue, profit, margins and return on funds employed (ROFE) rose in all major segments of the US subsidiary, Rinker Materials, despite the slowdown in US housing construction.

Other Highlights:

- Trading revenue rose 12% to US\$2,865 million.
- Earnings before interest, tax, depreciation and amortisation (EBITDA) up 13% to US\$760 million. On a like-for-like basis, EBITDA was up 19%.
- Earnings before finance and income tax expense (EBIT) was US\$649 million, up 15%. Excluding the previous period's quarry sale gain, EBIT rose 21%.
- Group EBITDA margins improved further to 26.5%, from 26.3%, while EBIT margins were 22.7%, up from 22.2%. Margins were up in all US product segments.
- Free cash flow was US\$270 million, down 17%. This was due to the accelerated payment of over US\$80 million in quarterly US federal income tax (which will balance out in the second half).
- Return on equity (ROE), measured on a 12 month MAT basis, was 35.3%, up from 23.8%. Comparable ROE was 34.6%, up from 23.1%.
- Return on funds employed (ROFE), measured on a 12 month MAT basis, was 37.1%, up from 33.3%.

The group's performance was helped by ongoing price increases across all businesses, coupled with US\$43 million in operational improvement and cost savings during the half - reflecting the intensified focus on cost reduction in the wake of the US housing slowdown. These efforts countered higher costs for power, raw materials and ocean freight.

The result was another improvement in performance for the group, despite the added challenge caused by the housing correction in Rinker's major US markets.

An interim dividend of 16 Australian cents per ordinary share, or 80 Australian cents per ADR, up 14%, has been declared. The dividend is 60% franked and payable on 11 December, with a record date of 24 November. The unfranked portion of the dividend will again be paid from Rinker's conduit foreign income - generally enabling dividends to be free of Australian withholding tax for overseas shareholders.

Capital management ratios are strong, after the US\$279 million special dividend in July, the US\$347 million capital return in August (40 and 50 Australian cents per ordinary share, respectively) and the buyback. Net debt was US\$1,070 million, up from US\$361 million at 31 March 2006. Net debt/EBITDA was 0.74 times, leverage/gearing (net debt to net debt + equity) was 32.4%, from 11.9% at 31 March 2006. EBIT interest cover was 61 times.

DIRECTORS' REPORT

REVIEW OF OPERATIONS AND THEIR RESULTS (continued)

Rinker was running well ahead of schedule with its current on-market share buyback, of up to 5% of issued share capital over 12 months. The buyback commenced on 23 August. Through 25 October, when the results blackout period commenced, the group invested around US\$155 million, buying back 15.1 million or 1.7% of the shares on issue as at 30 June.

Given the current circumstances, directors have temporarily paused the buyback for corporate governance reasons.

Capital expenditure during the half year was US\$222 million - US\$104 million in operating or stay-in-business capital and US\$118 million in development and acquisition capital, including early stages of the US\$220 million Florida cement plant, due for completion in 2008. Expenditure also included work on the new five million tonnes (5.5m tons) p.a. greenfield quarry in Sydney.

Business results

Rinker Materials (US) Sales were US\$2,268 million, up 15%. EBIT rose 18% to US\$576 million. EBITDA was up 17% to US\$661 million - or up 24% on a comparable basis. All major segments reported higher revenue and profits, with strong price increases across all products. Volumes were down, except in asphalt and concrete.

- Aggregates EBIT was up 25% to US\$161 million. Volumes declined 4% but the impact was offset by double digit price increases.
- Concrete, block & asphalt EBIT was US\$228 million, up 26%. Concrete volumes were up 3% (heritage volumes down 5%) but block volumes declined 11% (heritage down 24%). Strong price increases were recorded in all three products across all geographic regions.
- Cement EBIT was US\$82 million, up 24%. Volumes declined marginally but prices rose 13%, helping to offset higher imported cement costs, which are forecast to increase further in 2007.
- Concrete pipe EBIT was US\$83 million, up 21%. Volumes fell 3%. Operational improvement cost savings and higher prices offset higher raw material and power input costs.
- Other segment EBIT fell 46% to US\$23 million. The prior half included US\$31 million EBIT from the Buffalo Road quarry sale in Las Vegas.

US put-in-place construction activity decreased 1.3% during HYES06 relative to HYES05, with residential down 7.0%, commercial (non residential) up 8.5% and non-building/infrastructure up 7.4% (Source: Dodge; actual and forecast data).

Readymix (Australia) Revenue rose 5% to A\$790 million. Despite A\$11 million in cost savings during the half, higher costs and inadequate price increases meant EBIT was down 6% to A\$105 million.

Concrete prices were up 6% on average. Concrete pipe and products prices were also up.

Australian put-in-place construction activity rose 6.1% during HYES06 relative to HYES05, with residential down 6.0%, commercial up 7.3% and non-building/infrastructure up 18.4% (Source: ABS actual and BIS Shrapnel forecast data).

Overview

Rinker's strong regional positions in Florida, Arizona and Nevada continue to underpin group performance, with ongoing price increases in those markets despite volume declines due to the housing slowdown.

Higher non-residential construction and solid infrastructure activity - although still backlogged - are partly offsetting the housing decline.

There is general agreement that a housing inventory overhang exists in Florida, but much uncertainty about how quickly that will be resolved and how long before the recovery will commence.

Most of Rinker's products are used early in the housing construction process, so we have felt the decline in Florida for several months already. However, given the inventory issue, we expect some further negative impact on volumes for at least the next six months.

The concrete block business will be most affected, since its end market exposure is around 80 per cent to housing. Concrete, aggregate and cement volumes will also be further impacted, depending on the severity and duration of the slowdown, and the extent of offsetting growth in the non-residential and infrastructure segments.

DIRECTORS' REPORT

REVIEW OF OPERATIONS AND THEIR RESULTS (continued)

Whilst the excess housing inventory must be resolved, we believe it is a temporary issue only, which will be followed by a resumption of growth. Most importantly, high population growth, strong employment, low state taxes and warm weather have made Florida, Arizona and Nevada the three leading states in the US for construction activity over several decades and there is no indication of that changing.

Some commentators blame affordability issues but house prices have risen dramatically across the US and there is still a large price gap between Rinker's key markets and feeder states like New York and California. The impact of the first baby boomers reaching retirement (age 65) in 2011 has also yet to be felt.

Strategy and response to the housing slowdown

Our response to the housing slowdown was rapid, with detailed plans to handle a slowdown implemented quickly, particularly in the businesses most affected.

A key point is that Rinker aimed to maintain its market share, not volumes. The group is managing to those lower activity levels, by cutting costs.

Each year, Rinker's operational improvement plans aim to save the equivalent of inflation. This year, they are being supplemented by additional cost reductions. In total, we expect to deliver annualised savings of around US\$100 million - about double our normal rate. We are already on track to deliver this.

Employment has been reduced by over 900 since March 2006 through attrition and volume related reduction of positions. Other measures include slowing the rate of operational capital expenditures, reducing overtime and operating hours, cutting out shifts, mothballing or closing excess plants, reducing the number of trucks in service and managing inventories and receivables.

We also expect the slowdown to improve the acquisition landscape.

We are already seeing increased movement in this area and we expect to finalise some smaller acquisitions shortly. Larger acquisitions are subject to more variables and could come at any time.

Rinker's strong cash flows and financial position enable us to easily accommodate value-adding acquisitions as they arise.

Meanwhile, we are well underway with a major greenfields quarry expansion for Sydney and some additional aggregates prospects for Florida. The new Florida cement mill is also under construction. These growth projects will enhance earnings and enable us to expand as growth resumes in our key markets.

Outlook for the second half

Construction activity across the US and Australia is expected to continue at solid levels, with declining residential activity largely offset by stronger non-residential and infrastructure construction.

In Australia, BIS Shrapnel forecasts an increase in total construction activity in the year to March 2007, with engineering or infrastructure up 12.5%, non-residential/commercial up 7.4% and residential down 4.8%.

In the US, for the 2007 calendar year, Dodge is expecting a 0.3% decline in total activity, with housing down 5.4%, non residential up 7.2% and infrastructure up 4.6%.

Across the group, costs continue to rise. In the September 2006 half year, the cost of energy, fuel, cement and ocean freight all rose strongly from a year earlier. Further increases in the second half should be partly offset by lower oil prices.

Meanwhile, price rises are expected to continue, with most markets posting semi-annual increases. In Arizona, increases of 10% for aggregate and asphalt are being phased in. In Florida, increases are expected in January. A 12% lift in the cement price has been announced, together with increases of around 8-10% in aggregates. In Australia, Readymix is planning significant increases for April.

Given the impact of the housing correction to date, and the considerable uncertainty that exists in relation to US housing, we expect to deliver an increase in EPS which will take us to around the bottom end of our guidance range of 84 to 90 US cents per ordinary share. This assumes a further modest deterioration in housing in Florida.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 BASIS OF PREPARATION OF HALF YEAR REPORT

The Half Year consolidated financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001, applicable Accounting Standards, including AASB 134 "Interim Financial Reporting" and other mandatory professional reporting requirements. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 "Interim Financial Reporting". The Half Year financial report has been prepared on a historical cost basis, except for derivative financial instruments and available for sale investments that have been measured at fair value.

The Half Year consolidated financial statements have been prepared using the same accounting policies as used in the annual financial statements for the year ended 31 March 2006.

The Half Year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity as the Full Financial Report. The Half Year financial report should be read in conjunction with the annual Financial Report of Rinker Group Limited as at 31 March 2006.

Unless otherwise shown, the amounts have been rounded to the nearest tenth of a million dollars and are shown by 'US\$ million'. Rinker is a company of the kind referred to in Australian Securities and Investments Commission Class Order 98/100 issued 10 July 1998.

Tax consolidation

Rinker and its wholly-owned Australian resident entities have formed a tax-consolidated group with effect from 12 April 2003 and are therefore taxed as a single entity from that date. The head entity within the tax-consolidated group is Rinker Group Limited. Tax expense, deferred tax liabilities and deferred tax assets arising from temporary differences for the entities within the tax-consolidated group are calculated using the 'stand alone taxpayer' basis. Current tax liabilities and tax assets of the entities within the tax-consolidated group are recognised by the head entity in the tax-consolidated group (Rinker Group Limited).

Entities within the tax-consolidated group have entered into a tax funding arrangement and a tax sharing agreement with the head entity. Under the terms of the tax funding arrangement, each of the entities in the tax-consolidated group has agreed to pay to or receive from the head entity its current year tax liability or tax asset. Such amounts are recorded in the balance sheet of the head entity in amounts receivable from or payable to other entities in the tax-consolidated group.

The tax sharing agreement provides for the allocation of income tax liabilities between the members of the tax-consolidated group should the head entity default on its tax payment obligations. No amounts have been recognised in the financial statements in respect of this agreement as payment of any amounts under the tax sharing agreement is considered remote.

| UNRECOGNISED | | | | |
| Interim dividend year ended 31 March 2007 (a) | 9 November 2006 | 11 December 2006 | 16 | 143.2 |

The final and special dividends in respect of ordinary shares for the year ended 31 March 2006 were declared on 11 May 2006. Accordingly, these items were recognised during the half year ended 30 September 2006.

On 9 November 2006, the Rinker Group Limited directors declared an interim dividend of 16 Australian cents per share. This interim dividend in respect of ordinary shares for the half year ended 30 September 2006 has not been recognised in this half year report because the interim dividend was declared subsequent to 30 September 2006. This amount will be payable based on shares on issue at 24 November 2006 and is estimated to be A\$143.2 million. This estimate is based on shares on issue as at 9 November 2006 and is subject to change if the company purchases additional shares under the buyback program before the ex-dividend date.

Holders of Rinker American Depositary Receipts (ADRs) in the United States, which each represent five Rinker ordinary shares, will receive a dividend equivalent to 80 Australian cents per ADR, or five times the interim dividend per ordinary share noted above.

- (a) 60 per cent franked at the Australian corporate tax rate of 30 per cent. The unfranked portion of this dividend will be paid from Rinker's conduit foreign income amount.
- (b) The special dividend was unfranked. The entire dividend was paid from Rinker group's conduit foreign income amount, thus eliminating Australian withholding tax for all overseas shareholders.

6 BORROWINGS

During April 2006, Rinker expanded its commercial paper facility to US\$1,000.0 million from US\$400.0 million. The total committed standby bank credit facilities, which back the commercial paper program, remain unchanged at US\$1,177.5 million and, therefore, the combined total that can be drawn under the commercial paper and bank facilities remains unchanged. During the half year ended 30 September 2006, US\$1,855.2 million was drawn and US\$984.4 million was repaid under the commercial paper facility. In addition, US\$210.0 million was drawn and US\$460.0 million was repaid under the bank credit facilities. Drawings were used to fund the special dividend disbursed in July 2006, the capital return to shareholders paid in August 2006, and normal operating requirements. As at 30 September 2006, US\$870.8 million was outstanding under the commercial paper facility and US\$35.0 million was outstanding under the bank credit facilities.

- (a) Fully paid ordinary shares are listed on the Australian stock exchange, and carry one vote per share and the right to dividends.
- (b) On 12 May 2005, Rinker announced that a 12 month on-market share buyback of up to 10 per cent of its ordinary shares would commence. 17,819,268 shares were repurchased under the on-market buyback during the half year to 30 September 2005, of which 12,906,942 related to the buyback announced 12 May 2005 and the remainder related to a previous buyback program ended 26 May 2005. Shares repurchased were cancelled immediately upon receipt.
- On 17 July 2006, Rinker announced that a 12 month on-market buyback of up to five per cent of its ordinary shares would commence on 18 August 2006. 9,790,000 shares were repurchased under the on-market buyback during the half year to 30 September 2006. Shares repurchased were cancelled immediately upon receipt.
- (c) On 18 July 2006, the shareholders approved a capital return of 50 A\$ cents per ordinary share (A\$2.50 per ADR). During the year ended 31 March 2006, the return received a favourable class ruling from the Australian Tax Office confirming that it was a 100% capital return. The capital return was paid on 17 August 2006 to shareholders of record as of 25 July 2006.

| | US\$ MILLION | US\$ MILLION |
|-----------------------------------------------------------------------------------------------------|--------------|--------------|
| AS AT | 30 SEPT | 31 MARCH |
| | 2006 | 2006 |
| Contingent liabilities, capable of estimation, arise in respect of the following categories: | | |
| Performance bonds provided to third parties | 85.7 | 87.7 |
| Bank guarantees provided by Rinker group ^a | 95.9 | 91.0 |
| Total contingent liabilities | 181.6 | 178.7 |

- (a) Mainly provided by the Rinker group in lieu of contract retention payments, deposits for rehabilitation of quarry sites, and for insurance policy deductible amounts with the majority of the terms up to one year. The total bank guarantee facility available is US\$155.1 million. No specific Rinker group assets are pledged as security for the bank guarantees. The guarantees would be called if Rinker group failed to meet contractual obligations relating to commercial contracts, quarry rehabilitation and insurance policy deductibles. No liabilities have been recognised in respect of these guarantees as the fair value of the guarantees is immaterial. No payments have been made by the banks under these guarantees in the half year ended 30 September 2006 or the financial year ended 31 March 2006.

Rinker Australia Pty Ltd acts as an authorised self-insurer in New South Wales, Victoria, South Australia, Western Australia and the Australian Capital Territory for workers' compensation insurance, as does Rinker Materials Corporation and certain of its controlled entities in Arizona, California, Nevada, New Mexico, Oregon and Washington. Adequate provision has been made for all known claims and probable future claims that can be reliably measured.

The Company has commitments under contracts related to the Brooksville Cement Plant Expansion expected to total US\$220 million. This project, to build a second cement mill at the existing Brooksville site in central Florida, is targeted for completion in 2008.

11 DETAILS OF ENTITIES OVER WHICH CONTROL HAS BEEN GAINED OR LOST

During the half year ended 30 September 2006, there were no material acquisitions or disposals of controlled entities.

12 SUBSEQUENT EVENTS

On 27 October 2006 CEMEX Australia Pty Ltd, an indirect wholly-owned subsidiary of CEMEX S.A.B. de C.V., announced its intention to make a cash takeover offer for Rinker Group Limited at US\$13.00 per share. The Rinker board has advised shareholders of its preliminary view that the offer materially undervalues the company, is opportunistic and highly conditional.

On 9 November 2006, the directors declared an interim dividend of 16 Australian cents per share, 60 per cent franked. The total amount of the dividend is estimated to be A\$143.2 million and has not been provided for in the financial statements for the half year ended 30 September 2006.

Between 1 October 2006 and 9 November 2006, a total of 5,266,261 shares were purchased at a cost of US\$57.7 million under the 12 month on-market share buyback program that commenced in July 2006. The shares repurchased were cancelled immediately upon receipt. The effect of these transactions has not been recognised in the financial statements because they occurred after 30 September 2006.

DIRECTORS' DECLARATION

Declaration by directors on the financial statements and notes thereto set out on pages 7 to 16.

The directors declare that:

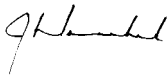

(a) in our opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and

(b) in our opinion the financial statements and notes thereto are in accordance with the Corporations Act 2001 (the 'Act') including:

(i) section 304 of the Act (compliance with accounting standards); and

(ii) section 305 of the Act (true and fair view).

Signed in accordance with a resolution of the directors made pursuant to section 303(5) of the Act

INDEPENDENT REVIEW REPORT TO THE MEMBERS OF RINKER GROUP LIMITED**Scope**

The financial report and directors' responsibility

The financial report comprises the balance sheet, income statement, cash flow statement, statement of recognised income and expense, selected explanatory notes and the directors' declaration for the consolidated entity for the half year ended 30 September 2006 as set out on pages 7 to 17. The consolidated entity comprises both Rinker Group Limited (the company) and the entities it controlled at the end of the half year or from time to time during the half year.

The directors of the company are responsible for the preparation and true and fair presentation of the financial report in accordance with Accounting Standards in Australia and the Corporations Act 2001. This includes responsibility for the maintenance of adequate financial records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Review Approach

We have performed an independent review of the financial report in order to state whether, on the basis of the procedures described, anything has come to our attention that would indicate that the financial report is not presented fairly in accordance with the Corporations Act 2001 and Accounting Standard AASB 134 "Interim Financial Reporting", so as to present a view which is consistent with our understanding of the consolidated entity's financial position, and performance as represented by the results of its operations, its changes in equity and its cash flows, and in order for the company to lodge the financial report with the Australian Securities and Investments Commission.

Our review was conducted in accordance with Australian Auditing Standards applicable to review engagements. A review is limited primarily to inquiries of the entity's personnel and analytical procedures applied to the financial data. These procedures do not provide all the evidence that would be required in an audit, thus the level of assurance provided is less than given in an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Statement

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Rinker Group Limited is not in accordance with the Corporations Act 2001, including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 30 September 2006 and of its performance for the half year ended on that date; and
- (b) complying with Accounting Standard AASB 134 "Interim Financial Reporting" and the Corporations Regulations 2001.
